

# Volunteers, Supporters, Donors

## Volunteers

Our director, board members and officers, project planners and activity leaders, are all volunteers. Our volunteers include retirees, working adults, high school students and college students. Our most senior volunteer is in her nineties, and our youngest is thirteen years old. Youth volunteers work together with adult volunteers at several venues including our storage units, migrant camps, and field trip destinations. Volunteers can help publicize our programs by working information tables at local events.

We recruit some of our volunteers from the migrant camps. Bilingual migrant workers and migrant teens have assisted us with teaching English, clothing distribution, art nights, storytelling nights, field trips and preparation of the Migrant Teen Journals.

To learn more about volunteering with Migrant Worker Outreach, or about our year-round clothing drive, go to [Get Involved](#).
